

EXPERIENCE

Conetdev | Co-Founder & Fullstack Developer present

Co-founded the company and led the development of several web projects from inception to launch. Managed a team of developers, overseeing project progress and ensuring adherence to deadlines. Developed full-stack web applications using modern technologies like React, Angular, Express, MongoDB, and Node.js.

Achievements:

- Grew the company from startup to a respected firm with over 100 clients internationally.
- Implemented a proprietary CMS which reduced project development time by 20%, increasing overall profitability.

Hubtel | Software Developer 2020 - 2023

Developed and maintained web applications using JavaScript, React.js, Node.js, and Express.js, leading to a 30% increase in user engagement. Implemented RESTful APIs to support mobile applications and integrate with third-party services, enhancing data exchange efficiency by 25%.

Uber Technologies Inc | Software Engineer 2016 - 2019

Designed and implemented user interfaces using React and Vue.js, ensuring responsiveness and accessibility. Developed server-side logic using Node.js and managed database interactions. Worked closely with UI/UX designers to translate designs and wireframes into high-quality code.

PROJECTS

Digitron: Tech Interview Simulator (React, Node.Js, Express.Js, OpenAI, MongoDB)

- Tech-Specific Interviews: Simulate interviews tailored to specific tech stacks like React and Node.js.
- Customizable Settings: Users can customize their interview practice by selecting their preferred technologies.
- OpenAI Integration: Utilizes OpenAI for realistic interview question generation and responses.

Workister: Project Management (Html, CSS, Javascript, Node.Js, Express.Js, MongoDB)

- Tech-Specific Interviews: Simulate interviews tailored to specific tech stacks like React and Node.js.
- Customizable Settings: Users can customize their interview practice by selecting their preferred technologies.
- OpenAI Integration: Utilizes OpenAI for realistic interview question generation and responses.

HooBank: Modern UI/UX Experience (React.Js, CSS, Node.Js, Express.Js)

- Built with React.js for robust functionality and styled with Tailwind CSS for sleek aesthetics.
- Focuses on delivering an irresistible user interface that enhances the overall online banking experience.
